FOR THE FALL ISSUE OF THE HILITES, THE TOPIC IS AVIATION IN NEW JERSEY

For the next show issue of the Hilites, we are revising the 1993 Show issue of the Hilites, on Aviation. For the purpose of the list, Airplanes, Airships, Balloons and Airports are wanted as long as they are identifiably in New Jersey. During the early years of aviation in our state, we had a number of small airports all over the state as well as Newark airport, Atlantic City airport, etc. Basically if it flies in New Jersey I want to know about it. Format will be the same as in past lists, by town.
